Welcome to the Electronic Submission System for the WaterWorks2014 Call.

Thank you for your interest in the WaterWorks2014 call.

Please note that the submission deadline for proposals is September 14 2015 at 17h00 CEST.

The Call submission deadline is September 14, 17h00 CEST.

[The Official Call Website](#) contains all the links to the documentation of the Call. Here you will also have access to all your National Annexes and National Contact Points.

In addition, be aware that, as stated in the Call Announcement, "When applying, keep in mind that the submission system will close at 17H CET of the deadline date established. However, the Call Secretariat (CS) can only ensure responses to email support requests up to 13H CEST."

Consortium Coordinator

In this section, you can edit your personal contact data and confirm that you are aware of the national/regional funding rules.

Partners

In the partners section you can add or amend partner accounts and edit the contact information of your project partners.

Basic Project Data

In this section, you can edit the basic data of your project.

Research Team

Here you must declare if any members of your consortium are also involved in any other proposal submitted (or in planning) within the framework of this call.

Publishable Abstract

In this section you must submit a publishable abstract of your project.

Subtopics of the Call

Here you have to list the subtopic or the subtopics that are covered by your proposal. The subtopics are listed in the Call Announcement or in the Guideline for Applicants documents. This is particularly relevant for the allocation of reviewers.

Budget Details

In this section it is necessary to submit the budget details of your proposal, including the requested funding and a short description regarding your costs.

Upload Full Proposal

Here you upload your full proposal which you have created by using the full proposal template (see [call documents on the WaterWorks website](#)).

Summary

The summary shows all data which you have entered via this online submission system. A pdf file containing all the submitted data can be downloaded here as well.

Submit

When all mandatory fields have been filled in and the proposal has been uploaded, please submit your proposal here.

Please note that you can resubmit your proposal multiple times. Each time it is resubmitted, the previous version will be overwritten, providing that changes have been made.

Title

Mr. -

Coordinator First Name

Please enter your first name. This field is mandatory. The maximum length of your input is 255 characters.

Klaus

Coordinator Last Name

Please enter your last name. This field is mandatory. The maximum length of your input is 255 characters.

Greulich

Login Name

Please enter your login (account) name. This field is mandatory. The maximum length of your input is 255 characters; only characters and numbers are allowed.

klausgreulichs

Status of Organisation

Please select the status of your organisation.

non-profit organisation

Name of Organisation/Institution/Company

Please enter the name of your organisation/institution/company. This field is mandatory. The maximum length of your input is 255 characters.

gdsfgdsf

Department

Please enter the name of the department you work in. This field is optional. The maximum length of your input is 255 characters.

gdsfgdsf

Street, No.

This field is mandatory. The maximum length of your input is 255 characters.

gdsfgdsf

Zip/Postal Code

This field is mandatory. The maximum length of your input is 255 characters.

gdsfg

Town/City

This field is mandatory. The maximum length of your input is 255 characters.

gdsfgdsfgdsf

Post Box (if applicable)

This field is optional. The maximum length of your input is 255 characters.

gdsfgdsf

Country:

Please choose the country you live in.

Belgium

E-Mail Address:

Please enter your e-mail address. This field is mandatory. The maximum length of your input is 255 characters.

klaus.greulich@logic-works.de

Phone Number:

Please enter your phone number including the international dialling code for your country. This field is mandatory. The maximum length of your input is 255 characters.

532345

Mobile Phone Number

Please enter your mobile phone number including the international dialling code for your country. This field is optional. The maximum length of your input is 255 characters.

534534

Fax Number

Please enter your fax number. This field is optional. The maximum length of your input is 255 characters.

Short Biography

Please describe in a few words your current position, fields of expertise and other relevant experience. This field is mandatory. The maximum length of your input is 500 characters.

gdsfgd

Task(s)

Please describe in a few words the task(s) which you will undertake in the proposed project. This field is mandatory. The maximum length of your input is 500 characters.

fsggsdfg

Curriculum Vitae

Additionally, you may also upload your Curriculum Vitae if you wish (max. 1 page, max. 5MB file, PDF file format).

Keine Datei ausgewählt.

You have uploaded a CV

References

List your 5 most relevant publications regarding the call topics.

Subtopics covered by your Proposal

Please read the blue box below with the description of the subtopics of the Call. Insert the numbers of the subtopics that are covered by your proposal here. The subtopics chosen have to be consistent to the choice of MAIN TOPIC(S).

Example: 1.1 and 1.2 (TOPIC: 1)

Example: 1.4 and 2.1 (TOPIC:1 and 2)

1. Research and Innovation for Developing Technological Solutions and Services for Water Treatment, Reuse, Recycling and Desalination:
 - 1.1 Developing low-energy, low cost, low chemical and high-efficiency technologies and processes for water treatment and desalination;
 - 1.2 Developing water recycling technologies and concepts leading to the production of safe resources for reuse;
 - 1.3 Developing innovative chemical/physical/biological tools to assess risks and to enhance the resilience of urban water systems; and
 - 1.4 Promoting innovative separation and extraction technologies in industrial areas to harvest resources from wastewater.
2. Research and Innovation for Developing Technological Solutions and Services for Water Resources Management:
 - 2.1 Developing smart water technologies based on sensor networks and real-time information systems;
 - 2.2 Promoting the interoperability of databases, sensors, and combined socio-economic and physical water models;
 - 2.3 Developing methodologies for adaptive water management, using relevant study cases, scenario development, and uncertainty assessment;
 - 2.4 Setting up innovative decision-making tools.
3. Research and Innovation for Developing Technological Solutions and Services to Mitigate Impacts of Extreme Events (Floods and Droughts) at Catchment Scale.
 - 3.1 Innovative tools for protection from hydroclimatic extreme events, including nature-based solutions, sensor technology, systems for interpreting and communicating data, and monitoring networks;
 - 3.2 Mitigating the harmful impacts of extreme events, implementing the concept of ecosystem services where possible;
 - 3.3 Developing technological, and/or managerial and/or integrated risk management solutions to urban floods and droughts.
