Division		
Areas of Expertise:		
Dina Bastos is the Head of Int. Business Dept. of the SME A Tremoceira Estrela da Piedade Lda. Tremoceira is currently a distinguished market player in the lupin bean processing industry in Portugal and, internationally, is positioned as one important industrial units of the canned food sector. With exports to main continents and covering the domestic market, Tremoceira is present in all the distribution channels as one relevant international lupin bean processing companies and distributors. The company was awarded with the Portuguese distinction of PME Líder since 2010.		
Short Description of your Institution:		
The company Tremoceira is localized at 20 Km from the IST-ID/UL and FF-UL partners and as being a distinguish producer of processed lupin beans, their experience and ongoing production on a daily basis is important for the execution of this project. In addition, Tremoceira will host the prototypes operated by consortium team members		
Role in the project:		
A major line of Tremoceira products is lupin beans (lb) and lupin bean based products for human consumption with a production around 700 tons/year of processed lb. The company will contribute for the execution of WP2 by providing samples of wastewater enriched on lupanine cooking and wastewater obtained at different stages of the producing process. In addition, will share the metric details of water volumes vs processing lb that will be useful for the accomplishment of WP5 and WP6.
