

Name SURNAME: Alfieri POLLICE		 Photo
Function:	Senior scientist	
Institution:	Water Research Institute of the National Research Council of Italy –(IRSA-CNR)	<input type="checkbox"/> Funding Agency <input type="checkbox"/> Programme Manager
Email:	alfieri.pollice@ba.irsacnr.it	
Phone:	00390805820531	
Division	Dept. of Bari	
Areas of Expertise:		
Water and wastewater treatment process and technologies – Reuse of treated wastewater – Treated wastewater management (industrial, municipal, agriculture, groundwater recharge)		
Short Description of your Institution:		
The Water Research Institute (IRSA) is part of the Italian National Research Council (CNR). For more than 40 years, IRSA has been performing research activities focused on the management of surface and groundwater resources and for the improvement of water and wastewater treatment technologies. IRSA has been involved in numerous research projects on process technologies, pilot and full-scale plant design, cost evaluation and dissemination of results, behavior of surface and groundwater resources under scarcity conditions, the development of novel tools and process technologies for increasing available water resources and sustainable treatment technologies for agricultural reuse of treated wastewater.		
Role in the project:		
Project coordinator and leader of WP5
