Phone:	0047 - 98215414	
Division	Section for Water and Society	
Areas of Expertise:		
Environmental economics; socio-economic analysis; water management; flood risk management; climate change impacts and adaptation		
Short Description of your Institution:		
<p>The Norwegian Institute for Water Research (NIVA) is Norway's leading institute for basic and applied research on marine and freshwaters. The institute's research comprises a wide array of environmental, climatic and resource-related fields. NIVA's world-class expertise is multidisciplinary with a broad scientific scope. We combine research, monitoring, evaluation, problem-solving and advisory services at international, national and local levels.</p> <p>NIVAs section Water and Society works on the interface between environmental and societal dynamics. Its staff conducts multidisciplinary research on cross-cutting water related issues as climate change adaptation and mitigation, national and transnational water governance, transboundary river basin management and socio-economic assessment related to water body disturbances, restoration and monitoring.</p>		
Role in the project:		
Lead of WP 5, cost-benefit assessment of high-frequency water monitoring.
