Division	Microeconomic Warsaw Ecological Economics Center	
Areas of Expertise:		
Non-market valuation, Environmental and resource economics, choice modelling		
Short Description of your Institution:		
<p>The Warsaw Ecological Economics Center (WOEE) is a research center founded in 1993, functioning within the Department of Economic Sciences (WNE) of the University of Warsaw. The main goal of WOEE is to perfect and popularize economic methods and instruments to solve problems related to environmental protection. We specialize in issues concerning the natural environment and natural resources as well as the evaluation of the impact they have on social welfare.</p>		
Role in the project:		
Responsible for WP5
