Phone:	+90 216 325 49 92/401		
Division	Project Coordination and Implementation (suen.ormansu.gov.tr)		
Areas of Expertise:			
<p>Her research interests are water and wastewater treatment with chemical and advanced oxidation techniques, water reuse, micro pollutants, and water management. Dr. Kerç represented The Scientific and Technical Research Council of Turkey (TUBITAK) in European Science Foundation (ESF) as a member of the Life, Earth and Environmental Sciences Standing Committee between 2005-2011. Since 2012, she has been working as the Project Development and Implementation Coordinator at Turkish Water Institute (SUEN). OECD Water Governance Initiative, Water JPI, World Water Council are among the international platforms she is representing SUEN.</p>			
Short Description of your Institution:			
<p>SUEN was founded in 2011 as a special funded entity under the authority of the Ministry of Forestry and Water Affairs of Turkey. SUEN is a national think tank located in Istanbul. It is established to develop national water policies, provide consultation to decision makers, coordinate between organizations & institutions and enhance scientific research and strategic ideas with a focus on creating a common platform for water management. The institute works in cooperation with national and international water-related institutions on issues such as sustainable water management, developing water policies, sustainable energy and capacity building for solving local and global water problems. SUEN will be responsible for the work package on dissemination & exploitation activities together with policy model development and implementation of AGRISENSUS for nutrients and plant protection products in case study areas.</p>			
Role in the project:			
WP6 Leader: Open field study (DEM)
