

<b>Name SURNAME:</b> John S. RICHARDSON		 <p style="text-align: center;">Photo</p>
<b>Function:</b>	Professor	
<b>Institution:</b>	University of British Columbia	
<b>Email:</b>	<a href="mailto:john.richardson@ubc.ca">john.richardson@ubc.ca</a>	
<b>Phone:</b>	+1 604 822-6586	
<b>Division</b>	<b>Department of Forest and Conservation Sciences</b>	
<b>Areas of Expertise:</b>		
<p>Dr. John Richardson is a Professor in the Department of Forest and Conservation Sciences at the University of British Columbia, where he is also director of the Stream and Riparian Research Laboratory. His research addresses questions of ecology and management of streams, riparian areas and with a broad interest in aquatic biology, and particularly stream-riparian interactions. He has published over 200 scientific articles, more than 150 of them in international, peer-reviewed journals. Over 40 graduate students, 15 post-doctoral fellows and 10 research assistants, as well as dozens of undergraduate honours students, have studied in his research team. He was previously on the editorial boards of the <i>Canadian Journal of Fisheries and Aquatic Sciences</i>, the <i>Journal of Applied Ecology</i>, and <i>Journal of the North American Benthological Society</i>. Richardson recently completed a 5-year term as Head of School. He is and has been a member of several endangered species recovery teams. He is an associate member of the Peter Wall Institute for Advanced Studies. For more see <a href="http://richardson.forestry.ubc.ca/">http://richardson.forestry.ubc.ca/</a></p>		
<b>Short Description of your Institution:</b>		
<p>The University of British Columbia (UBC) has approximately 55,000 students and an annual budget of over \$1661 million (Canadian). UBC is ranked in the top 40 universities of the world in most assessments. UBC attracts about \$430 million annually in competitive research funding, with &gt;10,000 active research projects. Over 4300 publications in international journals per year are produced from the institution. As a comprehensive university UBC has facilities for almost any kind of research, and has several field stations.</p>		
<b>Role in the project:</b>		
<p>Co-ordinator of program. Supervisor of a post-doctoral fellow and at least 1 PhD student on this project. Modelling, field work, and leading of white paper production.</p>
