

The Joint Programming Initiative “*Water Challenges for a Changing World*” (the Water JPI) is an intergovernmental initiative with the vision of achieving sustainable water systems for a sustainable economy in Europe and abroad.

MAIN OBJECTIVES

- Involving water stakeholders for effective RDI results uptake
- Attaining critical mass of research programmes
- Reaching effective, sustainable coordination of European water RDI
- Harmonizing national water RDI agendas in partner countries
- Harmonizing national water RDI activities in partners countries
- Supporting European leadership in science and technology

Strategic Research and Innovation Agenda (SRIA) Join Calls

The Water JPI SRIA is structured around five core themes:

- **Maintaining ecosystem sustainability;**
- **Developing safe water systems for the citizens;**
- **Promoting competitiveness in the water industry;**
- **Implementing a water-wise bio-based economy;**
- **Closing the water cycle gap.**

The SRIA focuses on tools and measures to provide effective solutions to key water challenges, thus contributing to the promotion of societal wellbeing and to boost competitiveness and growth in the European water sector.

Join Calls for Proposals

The Implementation Plan for 2014-2016 establishes three calls for proposals on Water RDI, including two, which will be reliant on financial support from Horizon 2020.

Pilot call : **“Emerging water contaminants – anthropogenic pollutants and pathogens”.**

Second call : **“Developing technological solutions and services for water distribution and measurement, waste water treatment and reuse, desalination, floods and droughts”.**

Third call : **“Improving water use efficiency and reducing soil and water pollution for a sustainable agriculture”.**
