

BiodivERsA and Water JPI
2020-2021 COFUND Call for Transnational Research Proposals on
**“Conservation and restoration of degraded ecosystems and their biodiversity,
including a focus on aquatic systems”**

Funding organisation funding rules

You will find in this document all the eligibility rules of the different Funding Organisations participating to this Call.

Please note that the document may be adjusted. We invite you to make sure you have the latest version. If a new version is uploaded on the website, a warning message will be indicated on the [BiodivERsA](#) and [Water JPI](#) website.

Please make sure to consult these rules and to contact your Funding Organisations Contact Point for more information, in case of any doubt.

We draw your attention on the fact that **compliance to Funding Organisations eligibility criteria and rules is mandatory**. Proposals that do not meet these criteria will be declined without further review.

Funding Organisation:

FWF Austrian Science Fund

Who is addressed by this information?

This document contains information on specific requirements for Partners applying for FWF funding. Please note that it is mandatory to follow the requirements described below. To make sure that all requirements are met and to receive latest information, please contact your respective funding organisation contact point.

IMPORTANT INFORMATION:

In addition to the application at the call secretariat administrative data (in accordance with the FWF guidelines for stand-alone projects) must be submitted online to the FWF at <https://elane.fwf.ac.at/>

This is required already at the pre-proposal stage via the programme category “IK – International Projects (preproposal, deadline 07. December 2020)”.

For the full proposal stage applicants must choose the programme category “I – International Projects”. Both steps are mandatory.

For submissions to be valid, the cover sheet generated at the end of the online submission process must be printed out and signed. It can then either be sent to the FWF by conventional mail (FWF, Sensengasse 1, 1090 Vienna) or scanned in, given a digital signature and sent to the FWF (office@fwf.ac.at) as an e-mail attachment.

Please note that the number of ongoing/approved projects in which one researcher can serve as principal investigator is limited to three in the Stand-Alone Projects Programme, International Programmes, Clinical Research and Arts-Based Research Programmes.

Information on the limit of the number of ongoing/approved projects and thus the limit of applications that can be submitted can be found at https://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/project_number_limit.pdf

For information on submitting an application from abroad see the FWF Website at <https://www.fwf.ac.at/en/research-funding/applications-from-abroad/>

Applicants must show that they possess the research qualifications needed to carry out the project by means of a publication record over the last 5 years commensurate with their career stage, which demonstrates their international visibility.

The following criteria are decisive in assessing an applicant’s publication record and initiating the review process:

- **Peer review:** All the publications listed (or more than half in the case of the humanities) must have been subject to a quality assurance procedure in line with high international standards, which usually means that journals should be listed in the Web of Science,

Scopus, or the Directory of Open Access Journals (DOAJ). For journals not listed in those databases, or monographs, edited volumes or contributions therein, or other publication types, the peer-review procedure must be documented on the publisher's website to which applicants should provide a link. Should no such documentation be available on the website, it is the applicant's responsibility to provide evidence that the publication has been subject to an appropriate quality assurance procedure.

- **Number and quality** of the applicant's publications must be commensurate with his/her career stage. At least two publications must be peer-reviewed and internationally visible publications with a substantial and independent contribution on the part of the applicant.
- **International nature:** In the natural sciences, life sciences, and social sciences, most of the publications listed must be in English. In the humanities and cultural studies, as well as arts-based research, most of the applicant's publications must have a wider than national reach.

Should an applicant fail to meet one or more of the above criteria, the applicant must include an explanation with the application. In cases of doubt, the decision-making bodies of the FWF shall decide whether the research qualifications are adequate.

ELIGIBILITY

Eligible Institutions/Persons <i>(incl. industry and funding rates)</i>	Individual researcher or teams of researchers, working in any kind of non-profit organisation: e.g. University University hospital Non-university research institute <i>Please refer also to the general FWF Funding Guidelines:</i> http://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/Einzelprojekte/p_application-
---	--

	guidelines.pdf available on: http://www.fwf.ac.at/en/research-funding/application/international-programmes/joint-projects-era-nets/
Eligible themes and environment	All (no restrictions)
Additional specific rules	Please note that starting on August 1, 2018, the number of ongoing/approved/submitted projects in which one researcher can serve as principal investigator will be limited to three in the Stand-Alone Projects Programme, International Programmes (including ERA-Net projects!), Clinical Research and Arts-Based Research Programmes. Principal investigators who already have three ongoing/approved/submitted projects will not be permitted to submit another application within those programmes until 12 months before the end of one of their ongoing projects. You are strongly advised to contact the national representative in case you may be affected by this regulation.

BUDGET

Minimum and/or maximum requested budget per Partner and/or per Project	The FWF anticipates funding of four projects, given the maximum commitment of 1Mio€.
Eligible Personnel costs (permanent/temporary)	The application should include all persons, in addition to the staff already available, who will be required for work exclusively on the proposed project. The available legal categories of employment are contracts of employment for full-time or part-time employees (DV) and reimbursement for work on an hourly basis (GB). In addition, a part-time contract of employment (50% contract of employment for student assistants) may be requested for researchers who have not yet completed a master's or diploma (<i>Diplom</i>) degree programme in the relevant subject area. The current FWF salary scale (http://www.fwf.ac.at/en/research-funding/personnel-costs/) indicates the salaries that may be requested. The FWF grants an annual salary adjustment to compensate for inflation; this is applied automatically to all

	contracts of employment in stand-alone projects that are valid when the adjustment takes effect.
Should any other costs/expenses be excluded?	<p>For scientists funded by the FWF, the funding is limited to “project-specific costs”, i.e. personnel and non-personnel costs that are essential to carry out the project and that go beyond the resources made available from the research institution’s infrastructure, according to the general FWF Funding Guidelines published at http://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/Einzelprojekte/p_application-guidelines.pdf.</p> <p>The FWF does not finance infrastructure or basic equipment at research institutions. Overheads may not be requested. Subcontracts must be well justified, i.e. must represent the only or the most economical way to have the work performed, please contact the FWF directly for clarification of individual cases</p>
Subcontracting rules	<p><u>To EU countries:</u> Yes <u>To Non-EU countries:</u> Yes <u>Subcontracting special tasks (i.e. IT services, etc):</u> Yes</p> <p>Independent contracts for work and services (costs for work of clearly defined scope and content commissioned to individuals, provided that it is scientifically justifiable and economical). Please contact NCP</p>
Should VAT be included in the budget figures provided for FWF?	Yes

BUDGET

Minimum and/or maximum requested budget per Partner and/or per Project	200,000€ max. per project
--	---------------------------

	<p>It is not possible however to combine BELSPO budget with regional budget (FRS-FNRS or FWO funding) within the same consortium. In other words, federal and regional budget cannot be concentrated within one and the same project consortium, also when it implies different researchers and institutions. Consortia with both BELSPO and FRS-FNRS/FWO funding will thus be declared ineligible. Consequently, it is strongly advised to contact the funding contact points in order not to jeopardize the consortium eligibility.</p>
<p>Eligible Personnel costs (permanent/temporary)</p>	<p>Applicants apply for temporary personnel. BELSPO prefers staff to be hired under a labour contract. However tax-free doctoral or post-doctoral scholarships can be accepted. Pre-tax wages associated with increases in the cost of living, employers' social security and statutory insurance contributions, as well as any other compensation or allowance due by law and secondary to the salary itself and tax-free scholarships. Tax-free scholarships refer to a grant subject to a tax exemption under the tax laws.</p> <p>The total number of tax-free scholarships per project is limited to max. 50% of the number of staff financed within said project.</p> <p>The staff costs (scholarships excluded) are limited to a maximum amount of:</p> <ul style="list-style-type: none"> - 4,200 €/month FTE for a technician/bachelor (regardless of years of experience) - 5,500 €/month FTE for a scientist with a Master's degree (regardless of years of experience) - 7,500 €/month FTE for a scientist with a PhD (regardless of years of experience). <p>At least 60% of the total proposal's budget has to be devoted to staff.</p>

<p>Should any other costs/expenses be excluded?</p>	<p>Two types of operational costs are eligible:</p> <ul style="list-style-type: none"> - General operating costs. This includes all current expenditures related to the project's implementation such as usual supplies and products for the laboratory, workshop and office, documentation, travel and accommodation, use of IT facilities, software, organisation of meetings, workshops and events, etc. The total amount of these operational costs is set at a flat rate of 15% maximum of the staff budget if applicant is coordinator of a consortium and 10% maximum of the staff budget for a partner. - Specific operating costs (invoices will be required): this includes specific operating costs not covered by the general operating costs such as costs for analysis, maintenance and repair of specific equipment purchased by the project, surveys, ... <p>Equipment cost: Purchase and installation of scientific and technical apparatus and instruments, including computer hardware. Equipment needs to be purchased in the first half of the project.</p> <p>Overheads : Institutions' general overheads that cover, in one lump sum, administration, telephone, postal, maintenance, heating, lighting, electricity, rent, machine depreciation, and insurance costs. The total amount of this item may not exceed 5% of the total staff and operating costs.</p>
<p>Subcontracting rules</p>	<p>Subcontracting is allowed for expenses incurred by a third party (either in EU or Non -EU countries) to carry out tasks or provide services that require special scientific or technical competences outside the institution's normal area of activity. The amount may not exceed 25% of the total budget allocated to the applicant concerned.</p>

Who is addressed by this information?

This document contains information on specific requirements for Partners applying for FWO funding. Please note that **it is mandatory to follow the requirements described below**. To make sure that all requirements are met and to receive latest information, please contact your respective funding organisation contact point.

IMPORTANT INFORMATION:

The FWO Strategic Basic Research Projects (SBO), next to the more fundamental oriented research projects, are also integrated in this call, with specific regulations. It is, in the light of the projects eligibility, of utmost importance to respect these rules, e.g. when it comes to the mandatory valorisation aspect. It is consequently strongly advised to contact the FWO contact point (see below) with any questions, in order not to jeopardize any research projects.

Funding Organisation Contact Point(s)	Toon Monbaliu Advisor Research Affairs +32 (0)2 550 15 70 eranet@fwo.be

ELIGIBILITY

Eligible Institutions/Persons <i>(incl. industry and funding rates)</i>	The eligibility of institutions and its researchers can be verified in the relevant regulations: → For Fundamental research, see articles 10-12 → For Strategic Basic Research, see articles 4-8
Eligible themes and environment	All environments, themes and topics are fundable , if they fit the appropriate funding channels scope.
Additional specific rules	→ Mandatory valorisation plan for SBO projects! - Strategic Basic Research projects imply projects with a primarily economic or societal finality. Valorisation is a mandatory feature in the SBO applications. We ask researchers to provide us with a 'valorisation plan' before the pre-proposal submission deadline. There is no fixed format and one A4 page should suffice. What the FWO wants to know is i) how the valorisation within Flanders - and potentially internationally – will take place and ii) which Flemish actors are involved in this exercise. This information can be submitted to the general eranet@fwo.be email address. - Researchers have to inform the central research coordination units, at their host institutions, about their participation. - One and the same researcher can only participate in 2 different research projects/consortia when applying for FWO funding, within the same call.

BUDGET

<p>Minimum and/or maximum requested budget per Partner and/or per Project</p>	<p>The maximum available FWO budget per project/consortium is <u>250,000 EUR, overhead included.</u></p> <p>Beware, the funding rules differ per FWO funding channel (FO and SBO). Also, for the overhead calculation the fundamental (FO) and strategic research projects (SBO) use a different rationale:</p> <ul style="list-style-type: none"> - FO: a 6% structural overhead should be calculated on the direct costs and inserted in the overhead category. - SBO: The SBO cost model applies. For information, a 17% overhead rate is commonplace. <p>It is not possible to combine FWO budget with federal budget (BELSPO funding) within the same consortium. In other words, regional and federal budget cannot be concentrated within one and the same project consortium, also when it implies different researchers and institutions.</p> <p>Consortia with both FWO and BELSPO funding will thus be declared ineligible.</p> <p>Consequently, it is strongly advised to contact the funding contact points in order not to jeopardize the consortium eligibility.</p>
<p>Eligible Personnel costs (permanent/temporary)</p>	<p>Only temporary personnel can be remunerated.</p>
<p>Should any other costs/expenses be excluded?</p>	<p>The respective funding channels regulations apply (see link to national rules above).</p>
<p>Subcontracting rules</p>	<p><u>To EU countries:</u> Yes, but with limitations. Contact the FWO-administration/contact point to verify the eligibility of a certain type of cost.</p> <p><u>To Non-EU countries:</u> Yes, but with limitations. Contact the FWO-administration/contact point to verify the eligibility of a certain type of cost.</p> <p><u>Subcontracting special tasks (i.e. IT services, etc):</u> Yes, but with limitations. Contact the FWO-administration.</p>

Who is addressed by this information?

This document contains information on specific requirements for Partners applying for BNSF funding. Please note that **it is mandatory to follow the requirements described below**. To make sure that all requirements are met and to receive latest information, please contact your respective funding organisation contact point.

IMPORTANT INFORMATION:

Applicants under this procedure shall be directly responsible for the implementation of the activities under the project proposal and shall not act as intermediaries, but they shall carry out activities under the project proposal on their behalf and at their expense.

Applicants to this procedure must be entities:

- Carrying out fundamental research studies; and
- Whose activities are entirely of a non-profit nature; or
- Whose activities are of both for-profit and not-for-profit nature, but these activities are clearly distinguished and their organization allows tracking of revenue and expenditures connected with their implementation, including by keeping analytical accounting. In the event that an applicant is involved in both for-profit and not-for-profit activities, the funding, expenditures and revenues shall be taken into account separately for each type of activity and on the basis of consistently applied principles of accounting of expenditures being justifiable.

Experimental development	45 %	35 %	25 %	100 %	100 %
Experimental development in case of effective cooperation***	60 %	50 %	40 %	-	-

* An SME is defined in Article 2 paragraph 2 and Annex 1 of the Regulation; a large enterprise is defined in Article 2 paragraph 24 of the Regulation.

** A research organization is defined under Article 2 paragraph 83 of the Regulation. The indicated funding rate is intended for non-economic activities of the research organisations (see also items 19 and 20 of [the Framework²](#)).

*** Effective cooperation - the aid can be increased by up to 15% if the applicant fulfills the conditions according to the Regulation Article 25.

TA CR will check following **eligibility criteria** at the national level:

- the project meets the definition of applied research;
- the aim of the project is relevant to the overall aim of the PROSTŘEDÍ PRO ŽIVOT programme;
- the research results correspond to the national rules (see below) and are applicable / exploitable;
- the industrial research and experimental development share corresponds to the activities of the Czech partner as described in the project proposal;
- the applicants are eligible;
- the costs are eligible;
- the requested funding meets the national regulations for aid intensity (see above);
- the applicants have published the financial statements for the requested years.

Czech applicants will be financed from the “PROSTŘEDÍ PRO ŽIVOT” programme - *subprogramme 2: “Ekoinovace, technologie a postupy pro ochranu životního prostředí.”* Relevance to the programme/subprogramme objectives is examined as a part of the eligibility check.

Supported outputs

Country: Germany

Funding Organisations:

Deutsche Forschungsgemeinschaft (DFG)

Bundesministerium für Bildung und Forschung (BMBF)/ VDI/VDE Innovation + Technik GmbH – Projekträger (VDI/VDE-IT)

Who is addressed by this information?

This document contains information on specific requirements for Partners applying for DFG or BMBF/ VDI/VDE-IT funding. Please note that it is **mandatory to follow the requirements described below**. To make sure that all requirements are met and to receive latest information, please contact your respective funding organisation contact point.

1) Procedure

Pre-Proposals:

Pre-proposals submitted by applicants applying for funds from a German research organisation (DFG or BMBF/ VDI/VDE-IT) will be examined as to their eligibility. If eligibility is given for one of these research funding organisations, the general eligibility is established.

Full Proposals:

As a service for the German community, all submitted full proposals including funds applied for at a German research funding organization will be processed according to a uniform procedure. In addition to the mandatory submission of all proposals to the BiodivERSA Call Secretariat, **all proposals applying for DFG or BMBF/VDI/VDE-IT funds must be submitted to DFG via the [DFG elan portal](#)**. For more details, please check the document to help you with DFG's elan portal **at the end of the German FO rules**. Please note that this also applies to applicants who only are eligible pursuant to the BMBF/VDI/VDE-IT guidelines. The proposal documents must be submitted via the DFG elan portal by the same deadline plus three working days as the full proposals to the BiodivERSA Call Secretariat. Subsequently, responsibilities for applications will be assigned among German funding agencies.

2) Technical advice

Submission of full proposals via DFG's Electronic Proposal Processing System (elan)

For each member of the consortium applying for funding from a German research funding organisation (DFG or BMBF/VDI/VDE-IT) the following process must be followed. In the following, these members of the consortium are referred to as "German applicants", which only means that they are applying for "German money", but not that these applicants' nationality must be German.

Please note that **before submission of the full proposal, each German applicant must be registered in the elan system.** (Registration of all German applicants should be finished three weeks in advance of the deadline for submitting full proposals at the latest.)

The proposal form (elektronisches Antragsformular) must be submitted via the DFG's Electronic Proposal Processing System (elan).

Please select as follows:

- Proposal Submission / New Project (Antragstellung / Neues Projekt)
- Individual Grants Programme (Einzelförderung)
- Proposal for a Research Grant (Antrag auf eine Sachbeihilfe)
- -> Start online form (-> Online-Formular starten)

For information on and access to elan go to

http://www.dfg.de/en/research_funding/principles_dfg_funding/elan/index.html

After submitting the proposal, you will automatically receive a compliance form by e-mail. This form must be printed out and returned to DFG with the original signatures of all German applicants.

ELIGIBILITY

	Deutsche Forschungsgemeinschaft (DFG)	Bundesministerium für Bildung und Forschung (BMBF) / VDI/VDE Innovation + Technik GmbH (VDI/VDE-IT)
Eligible Institutions/Persons <i>(incl. industry and funding rates)</i>	Applicants should read and follow DFG forms and guidelines for Research Grants (DFG form 50.01).	Participants must be research organisations and/or enterprises. Individual persons are not eligible for funding. Applicants should read and follow the instructions of the «Richtlinien für Zuwendungsanträge auf Ausgabenbasis» or «Richtlinien für Zuwendungsanträge auf Kostenbasis», depending on the legal status of the applicant's institution. All forms and guidelines are available at: https://foerderportal.bund.de/easy/easy_index.php?auswahl=easy_formulare&formularschrank=bmbf
Eligible themes/environment	No restrictions	No restrictions
Additional specific rules	In addition to submitting the full proposal to the BiodivERsA Call Secretariat, uploading the same proposal documents via the DFG elan portal by the same deadline plus three working days is mandatory. For more information: see <i>IMPORTANT INFORMATION</i> above.	All applicants from non-university research organizations (Helmholtz, Max-Planck, Leibniz Centres) have to follow specific application rules (only in German). For these it is <i>strongly recommended to contact the FCP at VDI/VDE-IT</i> : Antragsberechtigt sind Hochschulen, Forschungseinrichtungen und vergleichbare Institutionen. Forschungseinrichtungen, die gemeinsam von Bund und Ländern grundfinanziert

		werden, kann nur unter bestimmten Voraussetzungen ergänzend zu ihrer Grundfinanzierung eine Projektförderung für ihren zusätzlichen Aufwand bewilligt werden. Insbesondere wird von diesen grundfinanzierten außeruniversitären Forschungseinrichtungen erwartet, dass sie die inhaltliche Verknüpfung der Projektförderthemen mit den institutionell geförderten Forschungsaktivitäten darstellen und beide miteinander verzahnen.

BUDGET

	Deutsche Forschungsgemeinschaft (DFG)	Bundesministerium für Bildung und Forschung (BMBF)/ VDI/VDE Innovation + Technik GmbH (VDI/VDE-IT)
Minimum and/or maximum requested budget per Partner and/or per Project	BiodivERsA intends to fund projects with equal co-operations among international partners. Applied grants should reflect equal contributions within consortia and thus should be comparable (Please find information on other funding agencies' budget in the respective National Annexes). If all German applicants in a consortium plan to apply for a budget exceeding € 250.000 (if applicable including overhead costs) in total, please contact one of the respective funding organization contact points for advice.	
Eligible Personnel costs (permanent/temporary)	Details are provided in the DFG guidelines for Research Grants DFG form 50.01 . Personnel costs for permanent staff are not eligible.	Only temporary positions, cf. https://foerderportal.bund.de/easy/easy_index.php?auswahl=easy_formulare&formularschrank=bmbf
Should any other costs/expenses be excluded?	Please check the DFG guidelines for Research Grants for detailed information (DFG form 50.01). Overheads will be calculated automatically by DFG's elan system. However, please fill-in 22% of direct costs as overheads in the BiodivERsA form.	Cf. https://foerderportal.bund.de/easy/easy_index.php?auswahl=easy_formulare&formularschrank=bmbf Please include overheads ("Gemeinkosten" - applicable e.g. for Helmholtz-Centres and Fraunhofer-Society - as well as "Projektpauschale" - applicable for universities and university hospitals.) within the requested funding sum.
Subcontracting rules	Possible according to the general rules for research grants (for details see DFG form 52.01)	<u>To EU countries:</u> Possible. In this case, however, it is strongly recommended to contact the FCP at VDI/VDE-IT. <u>To Non-EU countries:</u> Possible. Teams from third countries or international organisations may be funded for minor tasks within the projects, when they are subcontracted by a German team. Cooperation with developing countries is acceptable. BMBF will not fund subcontracted teams from industrial

		countries or emerging economies, like China, Brazil etc. <u>Subcontracting special tasks (i.e. IT services, etc)</u> : Possible. Please contact the FCP at VDI/VDE-IT.
Should VAT be included in the budget figures provided for organisation?	Yes	See above, cf. https://foerderportal.bund.de/easy/easy_index.php?auswahl=easy_formulare&formularschrank=bmbf

1. To access the national funding, all approved projects will be required to submit a funding application through the WRC Proposal Submission BMS Online System (<https://wrc-bms.crm4.dynamics.com/main.aspx#688873383>) as the first step for the contracting process. The submission is mainly to capture the already approved projects on the WRC system. The national reporting will also be done through the BMS system. The SA partner will be required to submit the full project proposal approved within the BiodivERSA/ Water JPI joint call highlighting all partners' contribution and funding and a fully signed consortium agreement. For any enquires and support

needed for BMS please contact bms-support@wrc.org.za.

Further comments

1. SA partners are encouraged to include students in the projects for capacity building.
2. All projects should be aligned to one or more of the WRC strategic objectives. Check WRC website for more information.
3. There must be a clear distinction of new elements and value addition to projects that have been previously funded by the WRC through national calls for projects further submitted to the BiodivERSA/Water-JPI call. Failure to clearly distinguish the new elements will lead to the project being rejected for national funding following JPI approval.
