Other Funding Criteria	<p>Please note that starting on August 1, 2018, the number of ongoing/approved/submitted projects in which one researcher can serve as principal investigator will be limited to three in the Stand-Alone Projects Programme, International Programmes (including ERA-Net projects!), Clinical Research and Arts-Based Research Programmes. Principal investigators who already have three ongoing/approved/submitted projects will not be permitted to submit another application within those programmes until 12 months before the end of one of their ongoing projects. You are strongly advised to contact the national representative in case you may be affected by this regulation.</p> <p>https://www.fwf.ac.at/fileadmin/files/Dokumente/Antragstellung/project_number_limit.pdf</p>
Relevant documents	<p>FWF Submission:</p> <p>In addition to the application at the call secretariat administrative data (in accordance with the FWF guidelines for stand-alone projects) must be submitted online to the FWF at https://elane.fwf.ac.at/</p> <p>This is required already at the pre-registration stage via the programme category “IK – International Projects.</p> <p>For the full proposal stage applicants must choose the programme category “I – International Projects”. Both steps are mandatory.</p> <p>For submissions to be valid, the cover sheet generated at the end of the online submission process must be printed out and signed. It can then either be sent to the FWF by conventional mail (FWF, Sensengasse 1, 1090 Vienna) or scanned in, given a digital signature and sent to the FWF (office@fwf.ac.at) as an e-mail attachment. 	Kathleen Goris	Kathleen.goris@vlaio.be +32 (0)2 432 42 82	
Eligible Institutions	See “eligible applicants” section		
Eligible Applicants	VLAIO is involving the Research and Innovation Programme. Therefore, the involvement of at least one private company (SME or large company) based in Flanders is mandatory (with the possibility to cooperate with research organizations).		
Eligible Costs	Personnel cost and related direct and indirect costs according to VLAIO rules.		
Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal	
	800.000 EUR (excluding EC top up)	500.000 EUR	
Other Funding Criteria	Applicants should motivate how the realization of the project will create added value for the company and for Flanders. Subsidies for this call range from: 35-60% for development projects 60-70% for research projects		
Relevant documents	An annex is to be submitted together with the international project proposal to Flanders Innovation and Entrepreneurship. The annex(es) must be read together with the international project proposal. For this reason, the focus of this annex should <u>only</u> be on the role of your (Flemish) company in the project, the nature of the activities to be carried out by the Flemish partners and the impact of the project results for your company in particular. This information will be used to determine the funding percentage and to evaluate the selection criteria regarding the impact of the project.

BELGIUM (FLANDERS) – FWO

	<p>Funding Organisation:</p>	
<p>National Contact Points (NCP)</p>	<p>Name:</p>	<p>Email and Phone:</p>
	<p>Toon Monbaliu (general) Kristien Peeters (SBO)</p>	<p>+32 (0)2 550 15 70 +32 (0)2 550 15 95</p> <p>europe@fwo.be</p>
<p>Eligible Institutions</p>	<p>The FWO integrates 2 of its national funding channels within this multilateral framework. The choice of funding channel depends on the <u>type of project</u> the researchers from Flanders wish to undertake.</p> <p>The eligibility of institutions and its researchers can be verified in the relevant and respective chosen funding channels regulations, which can be consulted on the FWO website:</p> <ul style="list-style-type: none"> - FWO Research Projects (FO) - Strategic Basic Research (SBO) 	
<p>Eligible Applicants</p>	<p>See 'Eligible Institutions' above.</p>	
<p>Eligible Costs</p>	<ul style="list-style-type: none"> ○ The respective funding channel regulations apply (see links to national rules above), and both are capped at max. 350.000 EUR per project/consortium (incl. overhead, for which the calculation method diverges per funding channel). ○ The FWO foresees a budget of 700.000 EUR, which allows for the funding of at least 2 projects. 	

National/Regional regulations & regional contact points

	<p>For the <u>overhead calculation</u>, the fundamental (FO) and strategic research projects (SBO) entail the same approach:</p> <p>A <u>structural overhead rate</u> should be applied on the project costs, with an overhead rate of <u>6% for 'FO' projects</u>, and a <u>17% overhead rate for 'SBO' projects</u>. Some practical examples:</p> <ul style="list-style-type: none"> ▪ FO: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 12.000 EUR (6% of 200.000 EUR) and the total requested cost is 212.000 EUR. This total requested cost may never exceed the max. available amount of 350.000 EUR. ▪ SBO: the sum of all costs (personnel, consumables, travel, subcontracting, etc.) amounts to 200.000 EUR, then the overhead will amount to 34.000 EUR (17% of 200.000 EUR) and the total requested cost is 234.000 EUR. This total requested cost may never exceed the max. available amount of 350.000 EUR. 	
Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal
	700.000 EUR	350.000 EUR
Other Funding Criteria	<ul style="list-style-type: none"> ○ Participation in this call does not interfere with the 'regular' project submission framework, and is consequently not taken into account for calculating the max. available number of new applications and running projects combined. However, researchers can only participate within 2 different international consortia in this call. ○ When the FWO SBO project channel is chosen, the researchers are asked to provide proactively, and before the pre-proposal submission deadline (preferably one week in advance), a concise – but to the point – valorisation plan to the FWO (no fixed format, max. two A4-pages), which i) clarifies the valorisation context within Flanders (and also internationally preferably), and ii) mentions the involved – and specific - actors from Flanders. This document can be sent towards the europe@fwo.be email address. <u>Failure to comply with this requirement can lead to ineligibility.</u> ○ Projects aiming at the development of a spin-off company are not eligible in this context. ○ The project duration is limited to 36 months, which implies the funding has to be budgeted and spent accordingly. An automatic prolongation and using positive (financial) balances after the end date is not applicable in this framework. As such article 28 of the FWO Research Projects and article 14 of the Strategic Basic Research (SBO) regulations do not apply in this context. 	

National/Regional regulations & regional contact points

	<ul style="list-style-type: none"> ○ The PI, for each of the participating institutions applying for FWO funds, must hold an appointment that fully covers the duration of the research project. - Linked to the above, when it comes to the FWO research project regulations (FO): article 10, §7 is not applicable in this call. I.e. supervisors (-spokespersons), or coordinators/consortium partners in this context, who are granted emeritus status during the calendar year of submission of the project application or during the duration of the project, are not eligible.
Relevant documents	No submission at the national/regional level is required. However, if the SBO funding channel is chosen , a valorisation plan has to be submitted before the pre-proposal submission deadline.
Additional Info	It is strongly advised to contact the FWO contact points mentioned above, in order not to jeopardize any research projects/consortia.

Eligible Institutions	Applications may be submitted by German research institutions, universities and companies (in particular small and medium-sized enterprises-SME) based in Germany. Further, local authorities, non-profit organizations or associations are eligible for funding.	
Eligible Applicants	Research institutions receiving basic funding from the Federal Government and the <i>Länder</i> can only be granted funds to cover extra expenditure in addition to their basic financing. For information regarding the EU's standard definition of SMEs, please visit http://ec.europa.eu/growth/smes/business-friendly-environment/sme-definition_en .	
Eligible Costs	<p><u>Costs of personnel:</u> Costs of scientific staff, technical staff and/or student assistants, required in connection with the proposed project can be funded.</p> <p><u>Costs of durable equipment:</u> Funding for equipment can be provided. However, this only includes equipment that does not form part of an institution's basic equipment (i.e. no laptops, notebooks or equipment which is regularly used by the applicants).</p> <p><u>Consumables and supplies:</u> Any consumables necessary for the project implementation (expendable items, devices, business needs, transportation expenses, literature, rents, orders, etc.) may be considered as direct costs. Consumables are only eligible costs if bought after the start date of the project. Consumables belonging to the basic facilities of an applicant are not eligible.</p> <p><u>Sub-contracting:</u> Implement the project and shall have the necessary resources to that end. However, it should be accepted that as an exception certain parts that are not "core" parts of the project may be subcontracted, such as rent of locations, translation costs, costs for technical equipment in the context of the organization of events or printing services etc. The EU regulation on public procurement has to be considered: https://eur-lex.europa.eu/legal-content/DE/TXT/?uri=celex%3A32014L0024</p> <p><u>Travel costs:</u> Project related expenses / costs for travels and stays of German scientists and experts can be funded. Travel and stays of foreign scientists and experts can only be funded in well-justified exceptional cases.</p> <p><u>Indirect costs and overheads:</u> Overhead costs are eligible depending on the type of institution as well as on the respective accounting system.</p>

	Mr Tiyani Chauke	Tiyanic@wrc.org.za +27 12 761 9304
Eligible Institutions	South African registered Universities, Science Councils, Research Institutions and Private Sector conducting research, development and innovation.	
Eligible Applicants	Any person affiliated with the institution and authorized by the institution to lead the specific proposed project.	
Eligible Costs	Direct project related cost: personnel, project activities and procurement of equipment and Other direct costs: consumables and travel costs (flight, accommodation, allowance, travel insurance, visa fees, covid and other required vaccination fees) to participate in the project kick-off and other obligatory project consortium meetings.	
Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal
	90.000 EUR	Maximum of €45,000 per project (approximately R765 000 with the standard average conversion rate of 1R=€17 for all projects regardless of the interest rate at the time of application). This is the total funds committed for the duration of the project and not per annum and will be transferred in tranches as per project contract between the WRC and SA institution participating in the Water4All project
Other Funding Criteria	1) To access the WRC funding, all SA lead researchers in approved Water4All projects will be required to submit a funding application through the WRC Online Business Management System (BMS) as the first step for contracting process and also for national reporting. The submission on BMS is mainly to capture the already approved project on the WRC system. (2) All projects should be aligned to one or more of the WRC strategic objectives to qualify for funding. Check WRC website for more information and there must be a clear distinction of new elements and value addition to projects that have been

	previously funded by the WRC through national calls. Misaligned projects and failure to clearly distinguish the new elements in previously funded projects will lead to funding rejection regardless of Water4All approval.
Relevant documents	National Regulations
Additional Info	<p>(1) SA partners are encouraged to include students in the projects for capacity building.</p> <p>(2) Before submitting the proposal to the Water4All call secretariat, it is advised that the SA partner share the project outline with the WRC also highlighting the required financial cost for the SA partner to get WRC endorsement. The project outlines should be submitted to the WRC NCP not later than 2 weeks before the call deadline to allow sufficient time for the WRC expert to assess the application.</p> <p>(3) The WRC National Contact Point will facilitate and assist with partner matching between SA and for Water4All call partners countries should assistance be required by the SA or other Water4All partners.</p> <p>(4) To raise awareness and promote the call in SA, the WRC will share the call information using its website and social media platforms. The WRC NCP will also be available for bilateral virtual meetings with individual institution as per invitation.</p>

Eligible Institutions	Applications must comply with the SNSF Project Funding regulations and practices.	
Eligible Applicants	All Swiss applicants and co-applicants must be eligible for the SNSF Project Funding Scheme. Please note that applications submitted by a non-eligible person will not be considered nor evaluated. Please refer to the regulations and contact the national contact person for questions and re-assurance. Notice that Switzerland is among the countries involved in the Joint Call, in the category „Third countries and other countries“. Researchers from Switzerland should threrefor <u>not</u> be considered as self-funded partners.	
Eligible Costs	According to the regulations on project funding (article 8). Overhead contributions cannot be applied for: they are calculated on the basis of the total research funding given to a particular institution through all SNSF funding instruments, and are paid directly to the applicant’s institution on a yearly basis. The SNSF exclusively funds research conducted for purposes that are not directly commercial. Pursuant to the Research and Innovation Promotion Act RIPA and the legal framework of the SNSF, no research grants are awarded if the relevant research is conducted for directly commercial purposes or if the persons involved in the research work are not scientifically independent.	
Funding Commitment	Total Amount for the Call	Maximum Amount Per Proposal
	900.000 EUR	To provide for a greater degree of flexibility, there is no maximum contribution set per project for the Swiss part. Nevertheless, budgets of a collaborative research project must be balanced and the SNSF expects that applicants carefully
